

C - SILT FENCE

- ➔ **Most Popular**
- ➔ **Hardwood Posts**
- ➔ **Wide crown Staples**

Our most economical and best selling Silt Fence, the *Commercial style* fence is designed to meet the needs of the contractor or open-spec market. C—Silt Fence allows water to pass through the fabric, while costly suspended soil particles are trapped to settle to the ground. This restricts the loss of costly jobsite material, keeps our roads and highways free of mud, and protects our lakes and streams from harmful silt build-up. Wide crown 1" staples, air driven into solid hardwood stakes combine for the most durable open-spec silt fence in the market.
