

U.S. Silt & Site Supply / Getsco

Metal T-posts

T-48, T-60, T-72

- **Bundled for Easy Handling**
- **Studded w/ Kickplate**
- **Green Enamel Finish**

Our Fence Posts are made from high-strength rail steel and coated with high quality enamel paints to last years longer than other posts in the field. Even unfinished posts, used in silt fences, orchards, and vineyards, benefit from rail steel's inherent weathering resistance. For posts that will last for decades, hot dip galvanizing is also available.

Available sizes are 48", 60", 72" in a 1.25lbs per/ft rating painted with green enamel.

Details:

- Posts are painted with baked green enamel.
- Painted posts are banded in 5 piece sub-bundles in 200 piece master bundles, on blocking.
