DOT Series Silt Fence

CT36112130

- **DOT Approved**
- **Heavy Duty Posts**
- **Wide crown Staples**

Our CT DOT *Premium Series* Silt Fence was designed to comply with CT DOT rules, regulations and specifications pertaining to Silt Fence / Erosion Control. Utilizing style #2130 filter fabric, water is allowed to pass through the fabric, while costly suspended soil particles are trapped to settle to the ground. This restricts the loss of costly jobsite material, keeps roads free of mud, and protects our lakes and streams from harmful silt build-up.
